# 1. General Information

---

## 1.1 Main Features Of The System

---

Features of this system include:

- Electronic approval for credit cards
- Detailed, legible receipts and reports
- Complete electronic processing of aviation credit cards
- Automated cash-sale processing
- Invoice reprint capability
- Easy-to-understand prompts to guide transaction input

## 1.2 How To Use This Manual

---

This manual is designed as a self-study guide and reference manual. Employees should take time to read this manual carefully in order to understand completely how to use the OMNI 3750 Point-Of-Sale (POS) terminal. This machine offers a very user-friendly, menu-driven program to allow for easier processing with the minimum number of steps. The manual should be kept close to the POS so that it can be referred to quickly. This manual contains answers to the most often-asked questions. If it does not have a particular answer, Shell Aviation POS Support is available 24 hours/day, seven days/week at 800 7671 9820.

For information related to customization of the POS, refer to the **Configuring The POS Device - Manager Menus** section.

All numbers and amounts shown in this manual are representational only. Real values should be used.

## 1.3 What To Do If You Encounter An Issue

---

Follow these steps if you encounter a problem using the POS:

1. Locate the transaction, operation, or function you are attempting to perform in this manual. Follow through the instructions to ensure that you are providing the POS with all required and correct information.
2. Check with your manager and fellow employees to see whether they have experienced the same problem and, if so, how they resolved it.
3. Call Shell Aviation POS Support at 800 7671 9820 (have your 11-digit Terminal ID available and the details of your problem).

## **1.4 Quick Reference Guide**

This page may be photocopied and the copy kept separate from the manual to be used for faster reference. You should fill in any custom product codes that have been programmed. This guide will be most useful and easily understood after all training materials provided have been reviewed.

**Shell Terminal ID:** \_\_\_\_\_

### **Custom Product Codes:**

51: \_\_\_\_\_  
52: \_\_\_\_\_  
53: \_\_\_\_\_  
54: \_\_\_\_\_  
55: \_\_\_\_\_

### **The following cards will be accepted through the POS:**

- Shell Aviation
- Shell Contract Fuel
- Shell Carnet

<b><u>Transaction</u></b>	<b><u>Use Keys</u></b>	<b><u>Function</u></b>
<b>Cash Sale</b>	[Cash]	Used to generate a receipt for a cash purchase.
<b>Credit</b>	[Credit]	Used to refund a cardholder for goods and/or services.
<b>Post Authorization</b>	[Post Auth]	Used to charge a cardholder for goods and/or services when an approval code has been obtained over the phone.
<b>Pre Authorization</b>	[More], [Pre Auth]	Used to obtain a reference number on a Shell Aviation or Contract Fuel card prior to purchases of goods and/or services.
<b>Reports</b>	[More], [More], [Reports]	Used to reprint the batch review by invoice, review by product, balance, or settlement of the current batch or any of the three (3) most recently settled batches.

<b><u>Transaction</u></b>	<b><u>Use Keys</u></b>	<b><u>Function</u></b>
<b>Reprint</b>	[More], [Reprint]	Used to reprint an invoice from the current batch or any of the three (3) most recently settled batches.
<b>Sale</b>	[Sale] or Swipe Card	Used to charge a cardholder for goods and/or services.
<b>Void</b>	[More], [Void]	Used to remove an invoice from the current batch.

### **1.5 Glossary Of Terms Used In This Manual**

**ALPHA KEY** - Used to convert numbers into letters. Push the key on which the letter you wish to use is located, then push [Alpha] until the desired letter appears.

**BACKSPACE KEY** - Used to erase the last character entered.

**BATCH** - A series of transactions entered into the POS that are stored until the information is electronically transmitted to the processing center.

**BATCH BALANCE** - A printout of totals by card type for all transactions in the current batch.

**BATCH REVIEW BY INVOICE** - A printout of all transactions in the current batch showing card type and invoice total. A voided transaction will not have an amount listed.

**BATCH REVIEW BY PRODUCT** - A printout of all transactions in the current batch showing product code description, quantity, and invoice total.

**BATCH SETTLEMENT** - A printout of the electronic transmittal of the current batch to the processing center.

**CASH SALE** - A charge for purchases when cash is used as payment.

**CHARACTER** - A number, letter, or symbol that may be entered into the POS.

**CLEAR KEY** - Used to exit the transaction, operation, or function that is currently being performed.

**CREDIT** - Used to refund a credit card charge. If a transaction in the current batch needs to be cancelled, see **VOID**.

**CREDIT CARD SALE - MANUAL ENTRY** - A charge to a credit card for which the account information is keyed into the POS manually.

**CREDIT CARD SALE - SWIPED ENTRY** - A charge to a credit card for which the card is swiped through the POS and the account information is read from the magnetic stripe.

**CUSTOM PRODUCT CODES** - Codes 51-55 are designed to accommodate products and services not included in the master Shell product code list. Custom codes are for receipt purposes only and not for billing purposes.

**DATA CAPTURE** - Process of storing transactions in the POS until they are transmitted to the processing center.

**ENTER KEY** - Used to indicate that the entry is complete or should be null on any given transaction, operation, or function.

**MANAGER KEY** - Accesses menus that store information on fuel prices, taxes/charges, location information, and additional information that is utilized in the daily operation of the POS.

**OMNI 3750** - VeriFone POS device used for electronic approval and data capture.

**PAPER TICKET** - A document including the information necessary to charge a credit card other than through the POS, either completed by hand or using an imprinter.

**PASSWORD** - Used to access various transactions, operations, or functions. Passwords can vary from three (3) to eight (8) alphanumeric characters. Password protection helps eliminate unauthorized persons from accessing certain items in the POS.

**POS** - Point Of Sale

**POST AUTHORIZATION** - A manual credit card sale entered into the POS after a valid approval code has been obtained over the phone.

**PRICE TABLE** - Stores fuel prices. These are stored as items 1-9 in the Price Table in the Price Menu.

**PRODUCT TABLE** - Provides information on specific tax/charges and what product or service they are associated with.

**QUERY** - Tax/charge setting to determine whether a tax/charge is applied during a transaction.

**REPORTS** - Function to print past batch reviews, balances, or settlement receipts. Up to three (3) previous batch reviews, balances, or settlement receipts can be retrieved.

**REPRINT** - Prints a copy of an invoice from the current batch or any of the three (3) most recently settled batches.

**SALE** - A charge to a credit card.

**SWIPE** - Process of inserting a credit card into the POS card reader with the magnetic stripe facing down and to the inside, then pulling down from the top to the bottom of the card reader. This allows the POS to read the information stored on the card.

**TAX/CHARGE TABLE** - Provides information on specific tax/charges, their rate type, what they apply to, and whether they will always apply, query, or never apply during a transaction.

VOID - Cancellation of a transaction in the current batch. If you need to refund a credit card, see CREDIT.

## **1.6 Description Of The Equipment**

---

The OMNI 3750 is programmed to provide you with an electronic-approval and data-capture system. The Shell overlay and product codes receipt will serve as a quick guide to operations. For detailed instructions on how to use the POS, refer to the various sections of this manual. The following is a summary of important features of the POS that are utilized with this software.

**Display:** Guides you through each type of transaction, operation, or function. By following the prompts and watching for error messages, you should have no difficulty in operating the POS. If you encounter an error message that you do not understand, and that is not located in this manual, call Shell Aviation POS Support at 800 7671 9820.

**Phone Port:** There is one (1) analog phone port on the POS used to dial out for authorization and settlement.

**External PIN Pad Port:** There is one (1) external PIN Pad port on the POS used for entering PINs.

## **1.7 Special Keys**

---

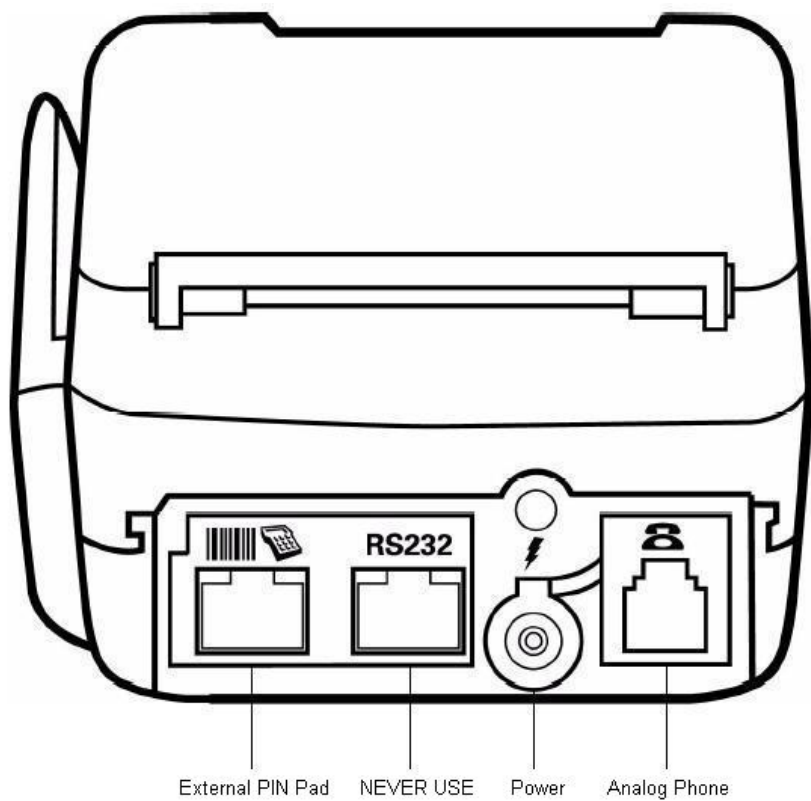

**[Back]:** Accesses the previous screen.

**[More]:** Accesses the next screen.

**[Exit]:** Exits the current screen.

**[Feed]:** Feeds the paper through.

**Diagram 1.1 OMNI 3750**

*Note: All pictures provided in this section have been reproduced from the VeriFone OMNI 3750 Installation Guide.*

**Diagram 1.2 OMNI 3750**

*Note: All pictures provided in this section have been reproduced from the VeriFone OMNI 3750 Installation Guide*

## 1.8 Passwords

---

Passwords are used with the OMNI 3750 to eliminate unauthorized access to restricted transactions, operations, and functions. There are three levels of password protection - Operator, Manager, and System. The Operator and Manager passwords should be maintained by the manager. The System password is maintained by Shell Aviation POS Support.

Passwords may be any combination of numbers and letters up to eight (8) characters. Letters are entered using the [Alpha] key as described in both the **Glossary Of Terms** and **Equipment** sections. Following are examples of valid passwords:

12345678  
HELLO  
A1B2C3  
1AB

**You should avoid passwords that might be obvious to any non-employees such as location name, city, etc.**

Passwords should be changed periodically to maintain security, as well as any time an employee leaves the company.

When passwords are being entered into the POS, an asterisk (\*) is displayed in place of each character for security purposes.

## **2. POS Device Functionality Description**

---

### **2.1 Passwords - Description Of Different Passwords Profiles And Functions**

---

The software has three levels of passwords, each password containing three (3) to eight (8) alphanumeric characters.

Manager - This gives access to the Location, Price, Tax/Charges, Phone, and Clock menus. This also allows changing of the Manager and Operator Passwords.

Operator - This gives access to Credit, Post Authorization, Void, Pre Authorization, and Settlement functions.

System - This is known only by Shell Aviation POS Support staff and allows access to system information.

### **2.2 Downloading Software**

---

Please contact Shell Aviation POS Support at 800 7671 9820 for assistance with downloads.

### **2.3 Description Of Manager Password Specific Functions**

---

The following functions should be accessible only with the Manager Password. Access to these functions is initiated by pushing [Manager].

#### **1. Location Menu: Used to store the following fields:**

- Five-digit Location ID
- 11-digit Terminal ID
- Five-digit Carnet ID
- VAT Number
- Location Name
- Location Address 1
- Location Address 2
- Location City
- Location Country
- Location Postal Code
- Location Phone Number
- Custom Ticket Messages
- Policy Table
  - Shell Aviation
  - Shell Carnet
  - Manual Entry Prompts
  - Contract Fuel
  - Operator ID
  - Pre Auth
  - Charter Market
- Batch Number

- Invoice Number
  - Operator Password
  - Manager Password
  - Operator IDs
  - Software Version
2. **Price Menu:** Used to store fuel prices, charter market threshold, and units of measure.
  3. **Tax/Charges Menu:** Used to store tax/charges information.
  4. **Product Codes Menu:** Used to store product code status, price format, and contract status.
  5. **Phone Menu:** Used to store phone numbers that the POS dials and the data transmission (baud) rate.  
*Note: DO NOT alter items other than Dial Prefix unless directed to do so by Shell Aviation POS Support.*
  6. **Clock Menu:** Used to store time and date information.

## **2.4 Description Of End Of Day Settlement Process**

Settlement is used to electronically transmit the current batch information to the processing center. This process involves printing the following:

1. **Batch Review By Invoice:** A printout of all transactions in the current batch showing card type and invoice total. A voided transaction will not have an amount listed.
2. **Batch Review By Invoice:** A printout of all transactions in the current batch showing product code description, quantity, and invoice total.

3. **Batch Balance:** A printout of totals by card type for all transactions in the current batch.
4. **Batch Settlement:** A printout of the electronic transmittal of the current batch to the processing center.

## **2.5 Product Codes And Label Description**

### **FUEL**

01: Jet A Fuel  
 02: Jet A Fuel W/ Add  
 03: Jet Fuel JP-8  
 04: Jet A1  
 05: Jet A1 AL 48  
 06: Shell AeroJet  
 07: Avgas 100LL  
 08: Avgas 80LL  
 09: Other Fuel

### **OIL/ADDITIVES**

10: Fuel Additive  
 11: Oil  
 12: A/S TEO  
 13: A/S PEO  
 14. A/S Fluids  
 15: A/S Greases

**OTHER:**

16: APU	28: Hangar Rental
17: GPU	29: Aircraft Rental
18: Maintenance	30: Car Rental
19: Aircraft Cleaning	31: Dry Cleaning
20: Tie Down	32: Fees
21: Pilot Supplies	33: Ground Handling Fee
22: Catering	34: Transportation Fee
23: Charter	35: Misc. Service Fee
24: LAV	36: Standard Charge Fee
25: De-Icing	37: Refuelling/Defuelling
26: Flight Instruction	38: Miscellaneous
27: Flt. Plan/Weather	51-55: Custom

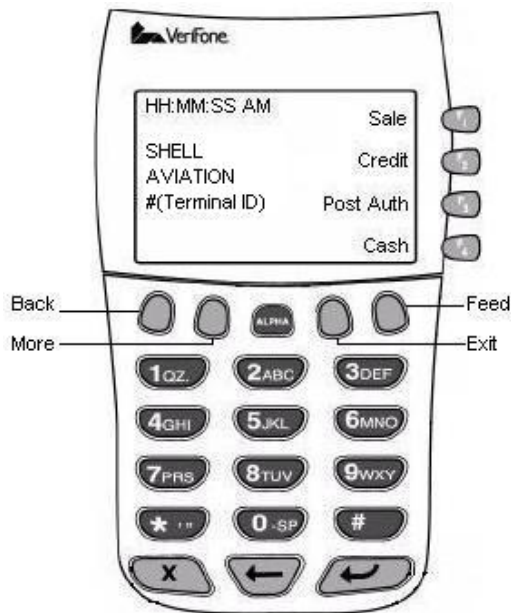

2.6 Manual Authorization

Card Center Phone Numbers		
~~~~~		
<u>Card Center</u>	<u>Merchant #</u>	<u>Phone</u>

Shell Contract Fuel		800 7671 9820
Shell Carnet		800 7671 9820

## 3. Step By Step Daily Transaction Processing Guide

### 3.1 Sales Transactions

#### IDLE PROMPT

1. To begin a Sale, swipe the Card or push [Sale].

*If 'Operator ID' is 'On', the POS prompts for the Operator ID.*

2. If [Sale] is pushed, swipe the Card or enter the Card Number, then push [Enter].

Sale	F1
Swipe Card Or Enter Card Number	F2
->	F3
	F4

3. If the Card Number is entered manually, the POS prompts for the Expiration Date. Enter the Expiration Date, then push [Enter].

Shell Aviation Sale	F1
Enter Exp. Date (MMYY)	F2
->	F3
	F4

*If 'Manual Entry Prompts' is 'On', the POS prompts for the Invoice Number and Invoice Date.*

4. Choose the Flight Type.

Shell Aviation Sale	
Choose Flight Type	
INT	F3
DOM	F4

*If a Shell Aviation or Contract Fuel Card is swiped or entered and 'Pre Auth' is 'On', the POS prompts for the Reference Number.*

5. Enter a Product Code, then push [Enter].

Shell Aviation Sale	F1
Enter Product Code	F2
->	F3
	F4

*If a Product Code is 'Off' in the Product Codes Menu, the POS will display 'Inactive Product Code'.*

6. Enter the Quantity (if applicable), then push [Enter].

Shell Aviation Sale	F1
Jet A1	F2
Enter Quantity	F3
->	F4

7. The POS will use the programmed Price if there is one. If not, enter the Price, then push [Enter].

8. Push [Yes] to accept or [No] to decline the Subtotal. This amount does not include Taxes/Charges or Subtotals for other Product Codes.

Shell Aviation Sale		F1
Jet A1		F2
Subtotal €1000.00?		
Yes		F3
No		F4

9. If the Product Code has Associated Taxes/Charges listed in the Product Table and the Taxes/Charges are programmed in the Tax/Charges Table, the POS will either calculate the Tax/Charge automatically or prompt 'Apply (Tax/Charge Type)?'. Push [Yes] or [No] to apply or not apply the Tax/Charge.

Shell Aviation Sale		F1
Jet A1		F2
Apply (Tax/Charge)?		
Yes		F3
No		F4

The POS uses the programmed amount to calculate Tax/Charge, then prompts for the next Associated Tax/Charge (prompts are repeated for all Associated Taxes/Charges).

10. The POS prompts for the next Product Code (return to Step 5).
11. When ONLY [Enter] is pushed at Step 5, the POS prompts for confirmation of the Total Sale Amount. Push [Yes] to accept or [No] to decline the Total.

Shell Aviation Sale		F1
Total €1000.00?		F2
Yes		F3
No		F4

12. Enter the Tail Number (if applicable), then push [Enter].

Shell Aviation Sale		F1
Enter Tail Number		F2
->		F3
		F4

13. Enter the PIN (if applicable), then push [Enter].

Shell Aviation Sale		F1
Enter PIN		F2
->		F3
		F4

14. The POS dials for approval. If approved, the POS displays the Approval Code. Push [Yes] to accept the Sale and print the location receipt, or [No] to cancel.

Approved (NNNNNN)		F1
Accept?		F2
Yes		F3
No		F4

15. Push any key to print the customer receipt.  
If [Clear] is pushed at any time, the POS prompts to 'Cancel?'.  
Push [Yes] to cancel or [No] to continue.

The following pages show examples of Sale receipts for Shell Aviation, Shell Contract Fuel, and Shell Carnet.

### 3.3 Post Authorization Of A Transaction

#### IDLE PROMPT

**Note:** Post Authorization should **ONLY** be used when you call a card center to obtain an Approval Code via voice authorization. If you receive a Reference Number with a Pre Authorization, you **MUST** use Sale.

1. To begin a Post Authorization, push [Post Auth].

*If 'Operator ID' is 'On', the POS prompts for the Operator ID.*

2. Enter the Operator Password, then push [Enter].

Enter Operator Password	F1
->	F2
	F3
	F4

3. Swipe the Card or enter the Card Number, then push [Enter].

Post Auth	F1
Swipe Card Or Enter Card Number	F2
->	F3
	F4

4. If the Card Number is entered manually, the POS prompts for the Expiration Date. Enter the Expiration Date, then push [Enter].

Shell Aviation Post Auth	F1
Enter Exp. Date (MMYY)	F2
->	F3
	F4

*If 'Manual Entry Prompts' is 'On', the POS prompts for the Invoice Number and Invoice Date.*

5. Choose the Flight Type.

Shell Aviation Post Auth	F1
Choose Flight Type	F2
INT	F3
DOM	F4

6. Enter a Product Code, then push [Enter].

Shell Aviation Post Auth	F1
Enter Product Code	F2
->	F3
	F4

*If a Product Code is 'Off' in the Product Codes Menu, the POS will display 'Inactive Product Code'.*

7. Enter the Quantity (if applicable), then push [Enter].

Shell Aviation Post Auth	F1
Jet A1	F2
Enter Quantity	F3
->	F4

8. The POS will use the programmed Price if there is one. if not, enter the Price, then push [Enter].
9. Push [Yes] to accept or [No] to decline the Subtotal. This amount does not include Taxes/Charges or Subtotals for other Product Codes.

Shell Aviation		F1
Post Auth		
Jet A1		F2
Subtotal €1000.00?		
Yes		F3
No		F4

10. If the Product Code has Associated Taxes/Charges listed in the Product Table and the Taxes/Charges are programmed in the Tax/Charges Table, the POS will either calculate the Tax/Charge automatically or prompt 'Apply (Tax/Charge Type)?'. Push [Yes] or [No] to apply or not apply the Tax/Charge.

Shell Aviation		F1
Post Auth		
Jet A1		F2
Apply (Tax/Charge)?		
Yes		F3
No		F4

The POS uses the programmed amount to calculate Tax/Charge, then prompts for the next Associated Tax/Charge (prompts are repeated for all Associated Taxes/Charges).

11. The POS prompts for the next Product Code (return to Step 6).
12. When ONLY [Enter] is pushed at Step 6, the POS prompts for confirmation of the Total Sale Amount. Push [Yes] to accept or [No] to decline the Total.

Shell Aviation Post Auth		F1
Total €1000.00?		F2
Yes		F3
No		F4

13. Enter the Tail Number (if applicable), then push [Enter].

Shell Aviation Post Auth		F1
Enter Tail Number		F2
->		F3
		F4

14. The POS prints the location receipt, then push any key to print the customer receipt.

*If [Clear] is pushed at any time, the POS prompts to 'Cancel?'. Push [Yes] to cancel or [No] to continue.*

## 5. Configuring The POS Device - Manager Menus

---

### 5.1 Description Of The Menu And Possible Configurable Parameters On The Device

---

#### IDLE PROMPT

*Note: A copy of ALL menus should be kept in a safe place in the unlikely case of hardware or software failure. ANY time a menu is changed, a new copy should be printed to update your copy on file. These menus ARE NOT kept on file at Shell Aviation POS Support, nor do we have access to any of the information. Also, keep these menu receipts OUT OF DIRECT SUNLIGHT, as thermal paper tends to fade from this exposure.*

1. To access the Manager Menus, push [More].
2. Push the [More] key again, then push [Manager].
3. Enter the Manager Password, then push [Enter].

Enter Manager Password	F1
->	F2
	F3
	F4

*The Manager Password is defaulted to 456, but can be changed.*

## 5.1 Configuring Your Location Details

1. Push [Location].

10:00:00 AM	Location	F1
Manager Menus	Price	F2
	Tax/Charges	F3
	Product Codes	F4

2. If [Print] is pushed, the POS prints the Location Menu. If [Exit] is pushed, the POS returns to the Manager Menus. If [Edit/View] is pushed, the POS prompts 'Enter Menu Number (1-37)'.

10:00:00 AM	F1
Location Menu	F2
	F3
Print	F4
Edit/View	

3. Enter the Menu Number, then push [Enter].

Edit/View Location Menu	F1
Enter Menu Number (1-37)	F2
	F3
->	F4

If any Menu Number 1-3, 9, or 13 is entered, the POS prompts 'Call POS Support For Assistance 800 7671 9820 Press Any Key To Continue'.

4. If any Menu Number 4-8, 10-11, 14-16, or 28-37 is entered, the POS prompts 'Enter New Value'. Enter the New Value, then push [Enter].

Location Name Is:	F1
Shell Europe Test Merchant	F2
Enter New Value ->	F3
	F4

5. If Menu Number 12 is entered, the POS prompts 'Choose Language'. Push the desired Language key.

Language Is:	F1
English	F2
Swedish	F3
Finnish	F4

6. If any Menu Number 17-23 is entered, the POS prompts 'Choose Setting'. Push the desired Setting key.

Shell Aviation Is:	F1
On	F2
Choose Setting	F3
Off	F4

7. If Menu Number 24 is entered, the POS prompts 'Enter New Number (NNN)'. Enter the New Number, then push [Enter].

Batch Number Is:	F1
100	F2
Enter New Number (NNN)	F3
->	F4

*If an Invoice is saved in the current Batch, the POS will display 'Batch Must Be Settled To Change Batch Number', then return to the same prompt.*

8. If Menu Number 25 is entered, the POS prompts 'Enter New Number (NNNNNN)'. Enter the New Number, then push [Enter].

Invoice Number Is:	F1
100000	F2
Enter New Number (NNNNNN)	F3
->	F4

*If an Invoice with the same Number is saved in the current Batch, the POS will display 'Invoice Number Must Be Unique To Batch', then return to the same prompt.*

9. If any Menu Number 26–27 is entered, the POS prompts 'Enter New Password'. Enter the New Password, then push [Enter].

Operator Password Is:	F1
***	F2
Enter New Password	F3
->	F4

10. Confirm the New Password, then push [Enter].

Operator Password Is:	F1
***	F2
Confirm New Password	F3
->	F4

11. The POS repeats steps 3–10 until ONLY [Enter] is pushed at step 3.

*If [Clear] is pushed at any time, the POS prompts to 'Cancel?'. Push [Yes] to cancel or [No] to continue.*

## 5.2 Setting Prices Of Products

1. Push [Price].

10:00:00 AM		
	Location	F1
Manager	Price	F2
Menus		
	Tax/Charges	F3
	Product Codes	F4

2. If [Print] is pushed, the POS prints the Price Menu. If [Exit] is pushed, the POS returns to the Manager Menus. If [Edit/View] is pushed, the POS prompts 'Enter Menu Number (1-11)'.

10:00:00 AM		F1
Price Menu		F2
	Print	F3
	Edit/View	F4

3. Enter the Menu Number, then push [Enter].

Edit/View Price Menu	F1
Enter Menu Number (1-11)	F2
->	F3
	F4

*If the Product Code for that Menu Number is 'Off' in the Product Codes Menu, the POS will display 'Inactive Product Code'.*
